

## How was your cigarette today?..... and where from?

### FlavourSpec®: Fake cigarettes detection and blending control

Conterfeit 'fake' cigarettes is a huge market today. By processing commodities of poor grade and disregarding quality standards fake cigarettes endanger the consumers health and cause economic damage.

The FlavourSpec® is a fast and easy to use tool that reliably characterizes cigarettes by a headspace analysis as each cigarette features a characteristic flavour. Automated processing of acquired data determine individual signatures that allow a definite identification of each type.

#### Applications:

- Identification of genuine / counterfeit cigarettes
- Quality control of commodities
- Secure a constant blending / product quality

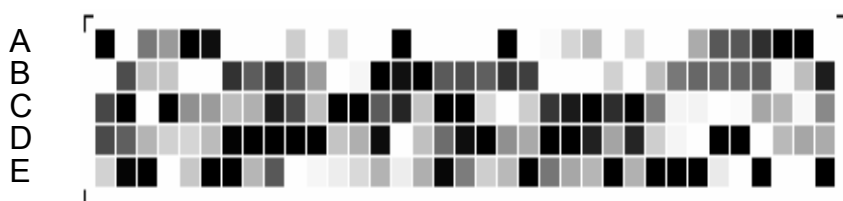

#### Advantages of FlavourSpec®:

- No sample preparation
- Convenient / easy sample handling
- Automated workflow
- Fast run times: Results in typically <10 minutes

**FlavourSpec®**

#### Brand

**Headspace signatures of 5 cigarette types**

Tested Sample	Assigned Training Sample	Deviation
